

Developing and deploying breakthrough technologies, products, and solutions...

OUR BUSINESS AREAS

Textile Engineering
Cutting edge machinery solutions for every textile process

Wastewater Treatment
Comprehensive solutions for wastewater treatment, recycling, and sludge management

Flow Technology
Efficient pumping solutions for wide ranging applications

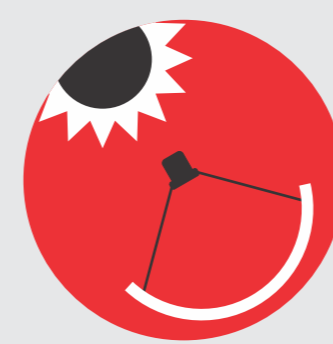

Internet of Things for Industry
Unlocking intelligence of things

Cooling
Unique, energy-efficient, and eco-friendly products for space and process cooling

Solar Heating
Concentrated solar thermal energy solutions for industrial process heating

Print and Packaging Equipment
Print control and vision systems for rotogravure printing

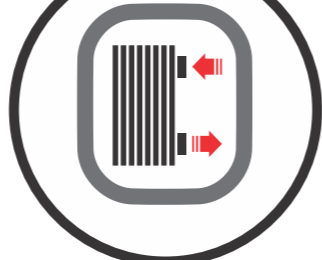

Value Enhancing Systems
For enhancing quality, safety, productivity, and saving energy

OUR TECHNOLOGIES

Textile Spinning 

Wastewater Management 

Heat Exchange 

Internet of Things for Industry 

Print Control & Vision Systems 

Static & Ink Control 

5000+ satisfied customers

500+ products

50+ renowned principals

13 offices across India and Bangladesh

partnering
people & the planet 

Since 1939
