

# Unlocking Sustainability

## AIR

- Eco-friendly and energy efficient cooling solutions for industrial and commercial applications
- Based on patented indirect direct evaporative cooling technology
- Cooling improves process efficiency and workforce productivity
- Proven technology: world's largest installed base of indirect evaporative cooling

**Cooling**  
**40,000,000** CFM  
spread over  
**8,000,000** ft<sup>2</sup>

## WATER

- Innovative, cost-effective wastewater treatment, recycling solutions including zero liquid discharge
- Global leader in the field of water, wastewater, and sludge treatment
- Caters to a wide spectrum of industries: chemicals, textiles, food and dairy, pharmaceuticals, and more

**300+** Projects by  
A.T.E.  
**40,000** Projects by  
Huber

## ENERGY

- Smart manufacturing solutions to end users and OEMs, using Industrial Internet of Things (IIoT)
- Caters to plastics, textiles and other manufacturing industries
- Enables energy saving and resource optimisation, reducing costs
- Provides a range of renewable energy solutions and technology services to improve bottom lines
