

Pump Series Sanimax®

A compact waste-water lifting station for wash-basin connection. The vent system is designed to prevent odours and no vent pipe is necessary. Sanimax has an air filter insert with flood-proof characteristics, hose connection for washing machines, low-level emptying and pre-assembled cable inlet. The waste-water pump is a standard MF/Robusta pump.

Flow	0-20 m ³ /h	0-90 gpm
